SUMMARY

Software Engineer with 2 years of professional experience and hands-on experience in full-stack development using React.js, Next.js, TypeScript, and Node.js. Currently building skills in Python, NumPy, Pandas, data analysis, and visualization while exploring Machine Learning, Deep Learning, NLP, Generative AI, LLMs, RNNs, and RAG. Experienced in integrating AI APIs and developing AI-powered applications.

TECHNICAL SKILLS

Languages:	Python, JavaScript, TypeScript, SQL
Data Analysis:	NumPy, Pandas, Data Cleaning, Exploratory Data Analysis (EDA),Data Visualization.
AI/ML:	Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Recurrent Neural Networks (RNNs)
Backend/Databases:	Node.js, Express.js, REST APIs, MySQL, Prisma ORM, Docker (Basic)
Frontend:	HTML5, CSS3, React.js, Next.js, Redux, Tailwind CSS
Tools/Platforms:	Git Version Control),Postman.

EXPERIENCE

Associate Software Engineer Mar 2025 - Aug 2026
Thoughts2Binary Pvt. Ltd. Gurgaon

- Delivered 10+ frontend features (dashboards, sprint boards, task management, embedded modules) using React.js, Redux, and REST APIs, with focus on scalability and usability.
- Boosted performance by building 5+ reusable components, implementing lazy loading, optimized rendering, pagination, and reducing redundant API calls.
- Resolved 300+ defects (250+ within 2 weeks) during a React upgrade by migrating class components to Hooks, debugging complex issues, and mentoring junior developers.

PROJECTS

SpendIQ – Next.js, React, TypeScript, PostgreSQL, Prisma, Groq AI Link

- Built and deployed a full-stack expense management application with authentication, expense CRUD, search/filtering, and 5+ REST API endpoints.
- Developed interactive financial dashboards with spending trends, category-wise breakdowns, date-based filtering, and AI-generated insights using prompt engineering for structured responses.
- Built an AI chatbot that analyzes user queries, retrieves relevant expense data from PostgreSQL, and generates personalized, context-aware financial responses using Groq AI.

Enterprise Project – React.js, JavaScript, Redux

- Developed 5–6 modules for a Jira-like enterprise application, including dashboards, sprint/task management, employee details, and support tickets; built reusable components and improved performance through lazy loading, pagination, and reduced API calls while resolving QA and production issues in collaboration with cross-functional teams.

ACHIEVEMENTS AND AWARDS

- **Star Performer Award - 2025** - Recognized for end-to-end ownership, problem-solving, quick learning, and consistent delivery.

EDUCATION

MCA - IIMT College of Engineering, Greater Noida 2022 - 2024
